GLORIFY YOUR GARDEN IN EARLY SPRING WITH Hardy Herbaceous Peonies

AND PLANT NOW, IN THE FALL, TO GET BEST RESULTS

When you order from this list, you may feel absolutely safe against any unhappy result, because we have allowed nothing in it except the very choicest kinds.

You surely want Peonies, because no other flower approaches them for hardiness, freedom of bloom, fragrance, usefulness as cut-flowers, and immunity from attacks of insects and disease.

We have exceptional facilities, not only for testing them in our own good soil here, but also for making critical examinations of some of the finest collections grown, thus enabling us to select for our customers the kinds which leading specialists agree are without rivals. You may order freely and feel safe.

We are Members of the American Peony Society 

Peony Culture

Peonies will grow anywhere—reasonably speaking. They thrive in partial shade, but best results are obtained when they are planted in deep, rich soil *about 2 inches below the surface* and have a sunny location. Plenty of water during the growing season is an added stimulus, and if liquid manure is applied at intervals of ten days, the grower will be amply repaid for his trouble in the increased size and coloring of the flowers. When placing manure around the plants, care should be taken not to put any on the stems, as this will sometimes cause the plants to cease blooming. September and October are the first choice of planting months.

Three Superior Peonies

AS SHOWN ON FRONT COVER

FELIX CROUSSE. An exceptionally fine Peony and one of the leading red varieties. It is extremely brilliant in color, a vigorous grower, free bloomer, and slightly fragrant. 75 cts. each, postpaid.

FESTIVA MAXIMA. Immense, pure snow-white, perfectly double flowers with an unexpected and beautiful flake of carmine in the center; a perfect Peony. 60 cts. each, postpaid.

EDULIS SUPERBA. Beautiful clear pink with silvery reflex; very fragrant. *It blooms here in time for Memorial Day.* 60 cts. each, postpaid.

»OFFER» 2 The above 3 magnificent Peonies in splendid roots for \$1.50, postpaid.

Five Leading Peonies

MONS. JULES ELIE. Large and full; glossy pink. This is spoken of as the King of all Peonies. Blooms are very large and deliciously fragrant. Keeps splendidly when cut in the bud. \$1 each, postpaid.

COURONNE D'OR. Immense, very full, ball-shaped bloom; white, with yellow reflection; red blotch on central petals. This is the famous Crown of Gold. 50 cts. each, postpaid. (See illustration.)

Duchesse de Nemours. Guard petals white, center lemon-yellow, with greenish reflex; very prolific and when full open is most exquisitely chaste. 50 cts. each, postpaid.

Mme. de Verneville. Immense bloomer; sulphur-white, with carmine-tipped central petals. 50c. each, postpaid.

Marie Lemoine. Immense flowers, often 8 to 10 inches across. Ivory-white, with occasional narrow carmine tracing on the edge of some petals. 50c. each, postpaid.

»OFFER» 2a Above 5 excellent kinds, all different, delivered for \$2.50.

»OFFER» 2b 8 Peonies, including 1 each of all above, delivered for \$3.90.

THE CONARD & JONES CO.:

I bought some Peonies from you last September which proved to be very satisfactory, although not set out until nearly the first of October, which would mean a month late in this climate. However, I had four nice blossoms off of the "Mons. Jules Elie," and I am in the market for about two dozen more Peonies this September.—W. D. U., Duluth, Minn.

Peony Officinalis

These are the real old-fashioned Peonies of our grandmothers' days. They bloom earliest of all. The flowers are large, full double, and fragrant. Three varieties:

Alba mutabilis. Blush-white.

Rosea superba. Bright rose-pink.

Rubra (Atrorubens plena). Brilliant, glowing deep crimson.

25 cts. each, postpaid

»OFFER» 2c The above 3 Peonies for 65 cts., postpaid.

NOTE.—If wanted for cut-flowers, Peonies should be cut while in bud, just as the color begins to show. They keep longer thus than if the flowers are allowed to open on the plant.

50 Years of Rose Growing

A record such as this of Antoine Wintzer, Vice-President of The Conard & Jones Company, is noteworthy, we believe, because unmatched in America today.

Mark Sullivan, now editor of *Collier's* weekly, a national periodical of 600,000 circulation, was once a West Grove schoolboy. On Independence Day, 1916, in an address at West Grove before the people of his home county, he said:

"I would like to acknowledge again the pleasure I have in coming here and seeing an occasional face that I remember. A man who used to speak to me when I went past his place was Mr. Antoine Wintzer. He, I am sure, did not know just who the little boy was, but out of the kindness of his heart he used to speak to me, and that gave me a feeling of exaltation and helped me. I often think some especial honor ought to be paid to him. You are no doubt familiar with the proverb that the man who excels in his art shall stand before kings—not just those words, but containing that thought. Mr. Wintzer excels in his art. *He brought to West Grove the business of raising flowers, and it has become the chief industry of the town.* A man of that kind always commands admiration and respect and, in the words of the proverb, shall stand before kings."

The fiftieth milestone was passed this summer. Fifty years ago in July Antoine Wintzer, our Vice-President, came to West Grove and began growing Roses for the people of America, and throughout every year for half a century he has made or directed the making of thousands upon thousands of Roses that have gone out from West Grove. (See Roses, page 30.)

TO WHOM IT MAY CONCERN: August 1, 1916

It affords us pleasure to testify to the high character and standing of The Conard & Jones Company. It is composed of practical, up-to-date nurserymen and Rose specialists. In our opinion, any statement they may make or any agreement into which they may enter can be absolutely relied upon.

C. & J. Finest Single Named Hyacinths

Single Blue Hyacinth, Grand Maitre. 3 for 50 cts.

SPECIALLY SELECTED FOR HOUSE CULTURE AND BEDDING

Every Hyacinth bulb we send out *has the blossom already formed inside it*. By regulating the culture (see directions with each order) you can have a beautiful display of bloom for Christmas or other special occasions, splendid for table, window or mantel decoration. Hyacinths remain beautiful a long time. Beds on the lawn in the early spring are exquisite. Plant now.

The figures, 1, 2, 3 and 4 after the name of the Hyacinth indicate the relative time of flowering—the 1's flower together and are the earliest; the 4's the latest.

C.&J. Finest Double Named Hyacinths

The Definition of a Bulb

A bulb is really an entire blooming plant telescoped into a convenient package where it will not grow until given certain favorable conditions. Furthermore, inside of the bulb are many thickened scales which contain enough stored food to develop the blooms. Because of this nourishment, such bulbs as Hyacinths, Paper-white Narcissi, and Chinese Sacred Lilies may be grown in water if desired, the water containing practically no plant food. The whole growing series is supported by food in storage. —From the *Florists' Exchange*, December 11, 1915.

Hyacinths in Separate Colors

Our Fine Selected Hyacinths in Separate Colors are good-size, well-matured bulbs, sold at low prices and specially recommended for bedding and also for winter blooming in the conservatory and window-garden, when the higher-priced kinds are not desired. They give excellent satisfaction.

We have given these Hyacinths a thorough trial in our proving beds year after year, and we find by experience that for outside planting the best results are obtained from the single varieties, as the spikes are always clothed with well-formed florets and are generally larger than the double varieties. As many of our customers prefer the double flowers, we offer first-class, well-matured bulbs of both kinds.

How to Grow Beautiful Hyacinths

In the Open Ground

Plant in the fall, 6 inches apart each way and 3 to 4 inches deep. Give them slight protection over winter, and in the spring, after the flowers are gone, the bulbs may be removed in time to set your summer-flowering plants.

In Pots or Window-Boxes

Plant the bulb in the pot so that its crown just shows, then set away in a cool, dark place for six weeks or two months for root-growth to develop. After this, bring gradually to the light, heat and air; give plenty of water.

In Glasses

Set the bulb so that the lower end merely touches the water. Put away in a cool, dark place till the roots nearly touch the bottom of the glass, then remove gradually to the light and keep the water cool always.

Early-Flowering Roman Hyacinths

ROMAN HYACINTHS are very desirable for winter flowering in the house and begin to bloom very quickly. The Bulbs are hardy and can be planted in the open ground if given slight protection. The delicious perfume and profusion of bloom have made these Hyacinths very popular.

Price, 5 cts. each, 12 cts. for 3, 45 cts. per doz., \$3 per 100, postpaid.

On account of unsettled conditions in Europe the crop of Roman Hyacinths is likely to be short and the bulbs smaller than usual. We wish, however, to assure our customers that we will supply the best bulbs obtainable.

Single White Early. Early and profuse bloomer; very beautiful and sweet.

Single Blush-White. Rich creamy white, elegantly tinted with rosy blush.

Single Light Blue. A most charming color; early and profuse bloomer; very sweet.

Double Pink. Splendid new variety; beautiful, large flowers in handsome, well-filled spikes.

Single Canary-Yellow. New and very beautiful. Stock limited.

WHITE ITALIAN or PARISIAN HYACINTHS. These produce larger flowers and are somewhat later than the Roman Hyacinths. Highly valued for forcing for cut-flowers. Abundant in bloom and delightfully sweet. *These are sold subject to receipt from abroad.*

➤OFFER➤ 7 Complete set of 5 named Roman Hyacinths, and 1 White Italian, offered above, 6 in all, only 25 cts., or 2 sets, 12 in all, for 45 cts., postpaid.

For three years I have grown the famous White Italian Hyacinth, and when in bloom my home is a dream of beauty and sweet fragrance. To me this is one of the most cherished of all flowers.—Mrs. J. C., Campbellsburg, Kentucky.

Gentlemen: I bought of you last fall Hyacinths for forcing. Each one sent up two large stalks of beautiful bloom, which amazed us. They were the most satisfactory plants I ever had.—Mrs. J. S. T., Skillman, New Jersey.

Giant White Narcissus

Grows in water and pebbles, or in soil

THE TRUE PAPER-WHITE GRANDIFLORA, or Large-flowering Polyanthus Narcissus will produce great masses of snow-white, deliciously fragrant flowers a few weeks after planting. A succession of bloom can be obtained by planting at intervals until Christmas. Late in the season they bloom very quickly. (See cut.)

Strong bulbs, 5 cts. each, 20 cts. for 6, 35 cts. for 12, \$2.50 per 100, postpaid.

THE CONARD & JONES CO.:

Your Narcissi are wonderful! I put three in a shallow pot two weeks ago yesterday, and today they are all in bloom,—open flowers! What could one desire more than that?—J. H. B., 601 W. 148th St., New York City.

Chinese Sacred Lily growing in pebbles and water

Narcissus, Soleil d'Or SUN OF GOLD

Same as above except in color. Rich yellow flowers, with deep reddish cups. This will not bloom so quickly as the white. 5 cts. each, 25 cts. for 6, 45 cts. for 12, \$3.50 per 100, postpaid.

These are about the most easily grown, continuous and abundant blooming bulbs you can get.

True Chinese Sacred Lily

THE WATER FAIRY, OR "SHIN SIN FAR"—CHINESE "JOSS FLOWER"

The genuine Chinese Sacred Lilies, grown for us in China. Each bulb sends up several flower-stems bearing great clusters of deliciously fragrant, pure white, wax-like blossoms with golden yellow centers. They are usually grown in a bowl of water with pebbles to hold the bulbs in place. Start by setting bulbs, when planted, in a dark place for two or three weeks. By planting at intervals you can have a succession of bloom all winter.

First-size, quick-blooming bulbs, 15 cts. each, 3 for 40 cts., 12 for \$1.50, postpaid.

Golden Sweet-Scented Sacred Lily

(*Campernelle rugulosus*)

C. & J. Crocus are the Improved Strains, noted for large flowers and brightest colors. They are entirely hardy, and like a rich, dry soil and sunny location. They are suitable for planting in beds and borders, also for edging in ribbon lines of any desired color; for planting in the grass in lawn or yard. Crocuses are also very highly valued for house culture.

*"Plant your Snowdrops in September;
Scilla, Snowflake, Crocus too;
If you wait until November
These won't wake so soon for you."*

Plant the Crocus 2½ inches deep, in the autumn. They look especially well scattered over the lawn as in this picture

What Flower Can Compare with the Stately Lily?

The True Bermuda Easter Lily (*Lilium Harrisii*)

Bermuda Easter Lily

This is one of the grandest and most beautiful Lilies ever seen, and the best of all for winter flowering in pots; it grows easily and is sure to bloom. The flowers are pure snow-white, very large and fragrant, and borne in splendid clusters, six or eight at a time. Vast numbers of these splendid Lilies are grown for church and house decorations every year. Plant in a pot or box which is at least 6 inches deep and well drained; good, turfy soil with a little old, well-rotted manure is best; the bulb should be covered about 1 inch deep; firm the earth well around it, water thoroughly and set away in a cool place three weeks or more till the roots begin to start, then bring to the light—the window of an ordinary living-room is about right. They require moderate heat, with plenty of sunshine and water, and should bloom about three months from time of planting. We offer 3 sizes. Ready in August.

The Madonna Lily

(*Lilium candidum*) See cut, page 17

Also known to many as the Annunciation Lily. It is most popular for garden planting on account of its deliciously fragrant, pure white, perfectly formed flowers, which come on strong, upright stems. To succeed with it the bulbs should be planted early in the autumn to enable them to become established before frost. Dust the bulbs lightly with powdered sulphur, and do not cover with more than 2 inches of soil. 15 cts. each, 3 for 40 cts., 12 for \$1.50, postpaid.

Lily-of-the-Valley

READY IN NOVEMBER, ORDER NOW

Its deliciously fragrant sprays of pure white, bell-shaped flowers, that hang in great profusion from slender stems, are most suitable for cutting, and, as it lends itself to winter forcing, it is grown in great quantities for the holiday trade. It is perfectly hardy, does not object to shade, and when colonized in large patches in partially shaded places it will increase and care for itself for years. Strong, flowering roots, 3 for 15 cts., 12 for 50 cts.; 1 bundle, 25 roots, 75 cts.; 100 roots for \$2, delivered free in U. S. A.

SIZES VERY MUCH REDUCED

The Best Hardy Lilies

These beautiful Lilies are quite hardy. Plant them 4 to 5 inches deep, and give them a light covering of leaves or litter before the ground is deeply frozen. They should be left to grow on from year to year.

Most Lily bulbs, being of late maturity, are not ready before October and November—the best time to plant them. Prepare your ground early and cover to prevent freezing until bulbs arrive. **Order now.**

Own-Root Roses for Fall Planting

Where the winters are not too severe, the fall planting of Roses continues to grow in popularity, especially with those who have tried our Field-grown Potted Stock. These plants we have thoroughly prepared for shipping and planting at any time and the sooner you send the better.

Order as early as possible (today); plant promptly on arrival; let the roots get well established this fall. Before the ground freezes hard, mound up the soil 6 inches high, thus protecting each plant for the winter. In the spring remove the covering gradually when danger from frost is past,—then will come your surprise and pleasure. The new growth and abundant bloom will be far in excess of that from plants set out next spring; so, if you live in a mild climate, begin your next year's Rose-beds now, and begin with these specially prepared Roses.

Strong, 2-year field-grown Roses, now in pots

Culture

For best results you should have a well-made Rose bed with soil at least 2 feet deep. These Roses are all budded or grafted; therefore, when planted, the place where the graft is joined to the Wild Rose should be at least 2 inches below the level of the soil. For winter, hill soil about the stems to a height of 6 or 8 inches, just before frost, and then cover the entire bed with leaves or straw. Do not remove covering till all danger of frost is past in the spring.

Price for all, 60 cts. each, by express

Hardy Climbing Roses for Fall Planting

You can cover any reasonable-sized trellis in two years if you use our vigorous, well-rooted, 2-year or 3-year size C. & J. Roses to start with and plant now.

AMERICAN PILLAR. Introduced by the Conard & Jones Company. The grandest single, hardy Climbing Rose known. In wealth of bloom it stands unequalled, producing, as it does, immense masses of radiant pink blossoms. The foliage is superb at all times, and canes grow 20 feet in one season. This Rose is enthusiastically praised by all who see it. Hardy everywhere. 2-year size, 50 cts.; 3-year, \$1; extra-large size, \$1.50, by express.

USEFUL AS A CUT-FLOWER

ADOLPH MULLER, Norristown, Pa., writes: "The single Roses deserve to become more popular. On June 28 I cut a big bunch of American Pillar, placed them in a vase on my dining-room table, where they remained until the following Sunday without dropping their petals. They then commenced to fade after being cut and in water for eight days. Don't think I ever saw a more beautiful bunch of flowers, they are far more graceful than the double flowers."

DOROTHY PERKINS, Pink. Grows 10 to 15 feet in a season. The clear shell-pink flowers are perfectly double, with petals crinkled; borne in immense clusters that cover the bush for several weeks in the spring. 2-yr., 40c.; 3-yr., 65c.; extra-large size, \$1, by express.

WHITE DOROTHY. A pure white sport of the well-known Dorothy Perkins, of same habit of growth and freedom of flowering; a splendid companion for the pink variety, as it flowers at the same time. A most valuable addition to this class. Awarded Gold Medal, National Rose Society, and Award of Merit, Temple Show, England. 2-yr., 40 cts.; 3-yr., 65 cts.; extra-large size, \$1, by express.

GARDENIA (Hardy Marechal Niel). Deep, rich golden yellow flowers, passing to creamy white. Blooms profusely and is as hardy as an oak. 2-yr., 50 cts.; 3-yr., 75 cts.; extra-large size, \$1, by express.

OFFER 33 The above 4 in 2-yr. size for \$1.50; 3-yr. size for \$2.50; extra size for \$3.50, by exp.

GET AN EARLY START NEXT SPRING BY PLANTING NOW Superior Hardy Climbing Roses

AS SHOWN ON BACK COVER

Dr. W. Van Fleet

A leader in this new class of handsome, large-flowered, perfectly hardy climbers. The foliage is shiny and attractive always, making a beautiful setting for the rich flesh-colored flowers. The buds are exquisite and the blooms, coming on strong stems 18 to 20 inches long, are unexcelled for table decoration. Hundreds of flowers can be cut from one well-matured plant. 2-yr. size, 50 cts.; Star size, 75 cts., by express.

No. 17952

June 16, 1916.

The Rose, Dr. W. Van Fleet, I got of you last year is the admiration of the whole community.—Mr. C. S. M., Westfield, Ill.

Excelsa (Red Dorothy Perkins)

Winner of the Hubbard Memorial Medal for the best Rose introduced in the past five years. The flowers are an intense, clear crimson-maroon, strikingly effective and enthusiastically praised. Blooms are perfectly double, often produced thirty to a stem, and almost every eye on a shoot produces a cluster of bright blossoms. 2-yr. size, 40 cts.; Star size, 65 cts.; extra-large size, \$1, by express.

No. 29085

It seems you are the only firm that puts out a Climbing Rose that is any account. The Dr. Van Fleet and Excelsa that I bought from you last year are fine and filled with buds.—E. W., Springfield, Mo.

➤**OFFER**➤ 36 The above two unexcelled, perfectly hardy climbers, in strong field-grown plants, 2-yr. size, 75 cts.; Star-size, the two for \$1.25, by express.

Requisites for Indoor Flowers

LENOX PLANT SPRAYER

Useful for spraying under the leaves; handy and effective. Almost indispensable for house plants. Complete, with a sample cake of Sulpho-Tobacco Soap, 50 cts., ppd.

THOMPSON'S ROSE NICOTINE

Is chemically pure nicotine, and quick death to insects on roses, plants, pets, or wherever found. Small can, 30 cts.; larger size, 60 cts., postpaid.

BON ARBOR

The Great Plant-Food

(Recommended by Successful Gardeners)

Results from only one or two applications are beyond description. It will make plants bloom that have never flowered before. Plants almost starved will become vigorous and thrifty by using Bon Arbor. Invaluable for pot-plants in winter. ¼ lb., makes 15 gals., 35c.; 1 lb., makes 30 gals., 60c., postpaid.

Illinois Self-Watering Flower-Boxes

TRY THEM THIS WINTER FOR YOUR WINDOWS—GUARANTEED NOT TO LEAK

The boxes are made of heavy galvanized iron, which is painted an attractive green, and are provided with a self-watering device which renders attention unnecessary, except at intervals of from ten to twenty days. Through the tube in the corner water is poured into the reservoir (c) underneath the false bottom (d) which supports the soil (b).

Sponges (cc) touch the extreme bottom of box and extend upward into the soil in which the flowers are planted, thus supplying water by sub-irrigation.

Careful trials have proved that plants treated this way thrive much better, blooms will be larger and foliage heavier than in ordinary surface-watered boxes. Makes a splendid Christmas present.

Patented Jan. 29, 1907; June 22, 1909

A PLEASANT SURPRISE

\$4 WORTH OF PLANTS AND **\$1**
BULBS FOR ONLY

After November 15th, and until January, 1917, we will send, postpaid, to any address in the United States, \$2.50 worth of plants and bulbs of our own selection, at regular catalog prices, for only \$1.00. For our friends who wish plants and bulbs shipped by express at their expense, so earth can be left on the roots of the plants, we will send (after November 15th)

\$4.00 Worth of

Plants and Bulbs for only \$1.00.

(Selection to be left to us as above.) For customers east of the Mississippi River who have low rates we strongly recommend express shipments.

How can we afford to do it?

To make sure of having enough plants and bulbs and not become sold out before the end of the season we are compelled to grow great quantities, and often have some left over. Of course we cannot tell in advance which these will be, but

we will make you up a nice assortment entirely our selection of good, strong plants and bulbs.

P. S. Please ask for the

"Pleasant Surprise Collection" and send us \$1.00 now, or at any time before January, 1917, and your order will be carefully booked and shipped as soon as its turn can be reached, beginning Nov. 15th.

QUANTITY PLUS QUALITY

I sent for one of your Surprise Collections last year, and was more than pleased by the quality, also the quantity of the collection and it surely did fine. It seemed you knew just what I needed.

Clara, Baker, Glasco, Kan.
